ROCK SOLIDLY RELIABLE

GL-AT 100
Thermostatic overflow tank

PRODUCT APPLICATION

The constant temperature overflow tank Eis produced according to the asphalt mixture density test method in the asphalt and asphalt mixture test procedure for highway engineering asphalt mixtures (JTG 20-2011), with automatic constant temperature and other functions.

Product Specifications

SPECIFICATIONS	GL-AT 100
Heating power	1500 W
Refrigeration power	138 W
Temperature range	room temperature to -60°C
Temperature control accuracy	25 ± 0.1 23 ± 0.1°C
Voltage	220 V
Frequency	50 Hz
Studio size (w x l x h)	390 × 380 × 310 mm
Dimensions (w x l x h)	580 × 580 × 1200 mm (with balance frame height)
