ROCK SOLIDLY RELIABLE

**GL-AT 112**  
**Asphalt Mixture Stability Gauge**

## PRODUCT APPLICATION

automatic asphalt mixture stability determination meter, is used to determine the asphalt mixture test when the pressure reached the point of destruction of the limit pressure and vertical deformation, is to do the asphalt ratio design and asphalt pavement construction quality inspection commonly used testing equipment.

This product conforms to the "Road Project Asphalt and Mixture Test Regulations" JTJ052-2000

## Product Specifications

SPECIFICATIONS	GL-AT 112
Load range	30 ± 0.1kN
Displacement range	10 ± 0.1mm
Loading speed	50 ± 5mm/min
Loading method	Auto/manual
Relative humidity	≤85%RH
Power supply	AC220V ± 10%, 50Hz
Power	500W
Dimensions (l x w x h)	550×350×700mm
Weight	60kg
