ROCK SOLIDLY RELIABLE

**GL-AT 113**

**Thermostatic overflow tank 2**

# PRODUCT APPLICATION

The constant temperature overflow tank is produced according to the asphalt mixture density test method in the asphalt and asphalt mixture test procedure for highway engineering (JTGF20-2011), and has automatic constant temperature and other functions.

## Product Specifications

SPECIFICATIONS	GL-AT 113
Heating power	1500W
Refrigeration power	138W
Temperature range	room temperature - 60°C
Temperature control accuracy	25 ± 0.1°C
Voltage	220V
Frequency	50Hz
Studio size (l x w x h)	400x400x300mm
Dimensions (l x w x h)	950x450x900mm
