ROCK SOLIDLY RELIABLE

GL-AT 116

**Low temperature constant
temperature groove**

PRODUCT APPLICATION

Low temperature constant temperature slot is one of the commonly used equipment in the laboratory, it is widely used in petroleum, chemical, metallurgy, medicine, biochemical testing, chemical analysis and research department, colleges and universities, factory laboratories and measurement quality inspection department, the equipment provides a hot and cold controlled, uniform temperature and constant maintenance environment for the sample.

Product Specifications

SPECIFICATIONS	GL-AT 116
Temperature range	-6.00 to 59.99°C
Volatility	±0.1°C
Capriciousness	50L
Operating slot volume	3:550×300×300mm
Pump flow rate	3.13L/mm
Power	2.2kW
Power Supply	AC220V ± 10%, 50HZ
