ROCK SOLIDLY RELIABLE

**GL-AT 119**  
**Computer asphalt softening  
point tester**

# PRODUCT APPLICATION

This product is suitable for the determination of various types of asphalt softening points such as road oil asphalt, coal asphalt, liquid petroleum asphalt, etc. The product meets the requirements of the standard stipulated in T0606-2001. Generally applicable to highway, bridge construction and other industry sectors.

## Product Specifications

SPECIFICATIONS	GL-AT 119
Test medium	Glycerin water
Temperature range	0-125°C
Resolution	0.01
Temperature control rate	5 °C ± 0.5 °C / min after three minutes
Accuracy	0.5°C
Testing room temperature	less than 30 °C (no air convection)
Relative humidity	≤85%
Temperature control mode	automatic temperature control
Stirring	Magnetic stirring (adjustable)
Steel ball mass	3.50g ± 0.05g
Steel ball diameter	9.53mm
Beet	1000ml
Voltage	AC220V ±10%
Power	700W
