ROCK SOLIDLY RELIABLE

GL-MI 102

**Digital display mortar
condensation time analyzer**

PRODUCT APPLICATION

It is one of the specialized tools used in building research units, colleges, and universities to measure the condensation duration and speed as shown by the continuous resistance.

Product Specifications

| SPECIFICATIONS | GL-MI 102 |
|--------------------------------------|--------------------|
| Detection range | 0 to 100N |
| Accuracy of view | 1N |
| View value resolution | 0.5H |
| Maximum stroke | 50 mm |
| Test area | 30 mm ² |
| Test module inner diameter and depth | Φ140 × 25 mm |
