GL-SP 103

**Constant temperature and
humidity maintenance box
(TLS-350B coating test chamber)**

PRODUCT APPLICATION

The national drying test standard for cement, concrete, and mortar, as well as the technical information supplied by the National Building Materials Research Institute and pertinent departments, are followed in the design and production of the dry shrinkage test chamber. It is appropriate for the upkeep of concrete specimens, mortar specimens, and other test parts in construction and building departments. The product satisfies the GB2423 standard requirements.

Product Specifications

SPECIFICATIONS	GL-SP 103
Control temperature	20 ~ 60 ± 2 °C
Control humidity	45 to 80 ± 5 %RH
Heating power	500 W
Refrigeration power	138 W
Power supply voltage	AC 220 V ± 10%, 50 Hz
Studio size	600 × 500 × 600 mm
Dimensions	700 × 650 × 1500 mm
Weight	185 kg
