ROCK SOLIDLY RELIABLE

GL-SP 280

Switch Socket Moisture Tester

PRODUCT APPLICATION

Our factory created and manufactured this product in accordance with GB/T16915.1-2003, the environmental test for electrical and electronic devices, household moisture requirements, and comparable fixed electrical device switches. The apparatus is mostly used to test the humidity and temperature of switch sockets on electronic products.

Product Specifications

SPECIFICATIONS	GL-SP 280
Voltage	220V
Heating power	500W
Refrigeration power	138W
Control temperature	40±2 °C
Humidity	93±3% RH
Studio size	550 × 550 × 800mm
Dimensions	650 × 700 × 1650 mm
Weight	200 kg
