GL-CC 100

**Thermostat and Constant Wet
Environment Control System**

PRODUCT APPLICATION

This product is appropriate for cement plant and building construction units, highway and bridge engineering units, and related scientific research quality inspection departments for the production and maintenance of cement, concrete, cement products, and so forth. The GL-CC 100 type constant temperature and humidity environmental control system is designed and manufactured in accordance with the national requirements for mortar, cement room, insulation materials room, and other new standards.

Product Specifications

SPECIFICATIONS	GL-CC 100
Temperature Control Range	20°C -25±2°C
Temperature Controller Error	±1°C
Humidity Control Range	50%RH±5% - 70%RH±5%
Power Supply Voltage	380V (three-phase four-wire)
Refrigeration & Dehumidification Power	4000 W
Heating Power	7500 W
Control Volume	100 m ³ (customizable upon request)
Weight	200 kg
