ROCK SOLIDLY RELIABLE

GL-CC 1000

**Digital concrete penetration
resistance**

PRODUCT APPLICATION

All types of cement, admixtures, and concrete matching ratios, as well as varying temperature environments for concrete blending and condensation time tests, can be used with this product. The product satisfies the JGTE30 and GB/T50080 standards.

Product Specifications

SPECIFICATIONS	GL-CC 1000
Test Temperature	20 ± 2 °C
Max Strength	1000 N
Test Mold Upper Diameter	Φ160 mm
Test Mold Lower Diameter	Φ150 mm
Minimum Measurable Value	0.1 N
Value Error	< ±1%
Entry Method	Manual
Stylus Load Areas	100, 50, 20 mm ²
Power Supply	220V, 50Hz
