ROCK SOLIDLY RELIABLE

GL-CC 150
Automatic Regulator

PRODUCT APPLICATION

This product can be used to determine ventilation and test the quality of other building materials. It is appropriate for detecting concrete anti-seepage performance and anti-seepage marks at all levels of engineering quality supervision and testing, construction unit laboratory, scientific research unit, college, and university. The product satisfies the GB/T50081 standard criteria.

Product Specifications

SPECIFICATIONS	GL-CC 150
Max Test Force	4 MPa
Operation Mode	Automatic pressurization
Number of Tests	6
Test Mold Upper Diameter	Φ175 mm
Test Mold Lower Diameter	Φ185 mm
Test Height	160 mm
Motor Power	80 W
Motor Speed	136 r/min
Piston Pump Diameter	Φ10 mm
Pump Reciprocation Frequency	136/min
Pump Flow	0.11 L/min
Power Supply	AC380V ±10%, 50Hz
Dimensions (L x W x H)	1090 × 710 × 920 mm
Weight	185 kg
