ROCK SOLIDLY RELIABLE

**GL-CC 200**

**Concrete seer**

# PRODUCT APPLICATION

This product is appropriate for testing and teaching concrete anti-seepage performance in colleges and universities, construction unit laboratories, scientific research units, and engineering quality supervision and testing departments at all levels.

## Product Specifications

SPECIFICATIONS	GL-CC 200
Max Working Pressure	200 MPa
Test Model Size (L x W x H)	Φ174 × Φ185 × 165 mm
Piston Diameter	10 mm
Stroke (Itinerary)	10 mm
Reciprocating Frequency	130 L/H
Flow Rate	0.1 L/H
Motor Power	80 W
Motor Speed	136 r/min
Working Mode	Auto & manual voltage regulation
Number of Simultaneous Tests	6
