ROCK SOLIDLY RELIABLE

GL-CC 201

**Straight-reading concrete gas
content meter**

PRODUCT APPLICATION

This device works well for regular concrete, flowing concrete, and dry hard concrete, but it is not appropriate for light aggregate concrete. Its primary function is to measure the gas concentration of freshly mixed concrete. ANSI/ASTM C231-378 is followed.

Product Specifications

SPECIFICATIONS	GL-CC 201
Max Aggregate Size	≤ 40 mm
Max Gas Content	8%
Chamber Size	7L, 1:1 diameter to height ratio
Pressure Display Range	0.25 MPa
Display Precision	0.005 MPa
Gas Content Range	0-8%
Minimum Reading	0.1%
