ROCK SOLIDLY RELIABLE

GL-CT 160A
Cement slurry mixer

PRODUCT APPLICATION

One of the essential pieces of equipment for cement plants, construction units, relevant professional colleges, and cement laboratory research units is the GL-CT 160A cement slurry mixer, which is based on the requirements of GB/T1346, JC/T729 standard, and the standard of cement and water mixed into a uniform test slurry for the determination of cement standard consistency, condensation time, and the production of stable test blocks.

Product Specifications

SPECIFICATIONS	GL-CT 160A
Low-Speed Stirring Rotation	62 ± 5 r/min
High-Speed Mixing Rotation	125 ± 10 r/min
Rotating Mixing Speed	<ul style="list-style-type: none">• Low : 140 ± 5 r/min• High : 258 ± 10 r/min
Stirring Blade Width	111 mm
Blade Shaft Coupling Thread	M16 × 1.5
Mixing Pot Volume	2.5 L
Mixing Pot Wall Thickness	1.5 mm
Stirring Leaf to Mixing Pot Working Gap	2 ± 1 mm
Power supply	AC 380V ± 10%, 50 Hz
Dimensions (L x W x H)	600 × 320 × 660 mm
Weight	85 kg
