ROCK SOLIDLY RELIABLE

GL-CT 96

Cement sand flow degree meter

PRODUCT APPLICATION

The GL-CT 96 cement sand oscillation platform is appropriate for cement strength testing of sample equipment and complies with the cement sand strength inspection technique, which is comparable to the application of ISO676:1989 (E) international standard and ISO679:1989 (E) 4.2.5 standard.

Product Specifications

SPECIFICATIONS	GL-CT 96
Total Weight of Vibration Part	20 ± 0.5 kg
Vibration Distance	15 ± 0.3 mm
Vibration Frequency	60 times / 60 seconds ± 2 seconds
Electric Motor Rotation	60 rotations/min
Motor Power	30 W
Power Supply Voltage	220 V
